

October 5, 2018

Dear Neighbor,

We are residents of Southridge and we are endorsing our friend, John Kowalko, for State Representative for the 25th District. You may ask yourself, "Why are they supporting John"? Well, let us tell you why.

One of the first reasons is that anytime anyone has any questions about what's happening in Dover, we go right to John. He answers our questions and helps us to understand why certain bills are passed.....He doesn't beat around the bush. He's upfront and honest about all of the business of the legislature.

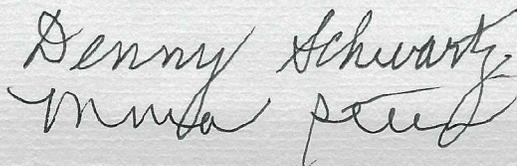

Another issue that has long lasting effects is the proposed development of 44 townhouses on property adjacent to our property. We called upon John to assist us in this quest to squash the development and thus far, it has been successful. John, along with City Councilwoman, Jen Wallace, and State Senator, Stephanie Hansen, attended several meetings at Southridge. We met and together with neighbors in Academy Hill, Art Lane, Silverbrook, Catalina Gardens, W. Chestnut Hill Road, and others, worked on a plan to take to the City of Newark Building Committee. Although it's not a done deal, we are hopeful that this situation will be down-graded or vetoed by the City.

Rep. Kowalko just can't say NO! He is always open to what we have to say and is always truthful and honest with his decisions. He is the one person in Dover that we can say "listens to his constituents" and does his homework when it comes to pressing issues. He's not afraid to speak his mind and do the right thing. He is someone **we can count on**.

We hope that you will join us on November 6th in casting your vote for John Kowalko. We can count on him making the right calls in Dover, but first, you must make the right move and push his button in the voting booth.

Sincerely,

Denny Schwartz and Mona Stein
