

Dear Neighbors and Friends,

There is a very important election on November 6th in which I hope you will join me and my family in voting for the reelection of John Kowalko as our State Representative.

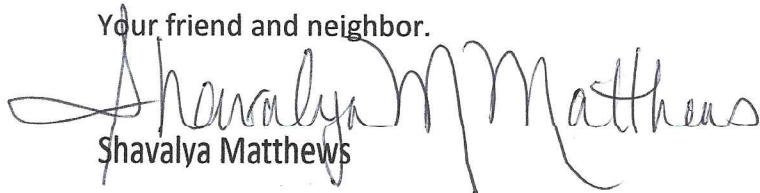

I have lived at my home in Robscott for over 30 years and I've had a quite a few elected officials representing me and my family during that time. As effective and responsive as they were, John Kowalko stands head and shoulders above them with his attitude and willingness to serve our community's best interest. He listens intently to the concerns of our community members and always seeks the correct course of action to address those needs. He has always shown the courage to stand up for our best interests and he has steadfastly represented our community and the 25th District in Dover.

When I worked at Chrysler, John was there fighting to keep the plant open. When developers hatched a flawed plan to build a power plant on the Star campus, John helped point out the abuses and misrepresentations in the developer's scheme and helped save our community from a disastrous intrusion that would disaffect our quality of life and harm our families' and children's health.

We need to return John to office so that he might continue his efforts to fight for us and our families against government corruption and abuse.

Please join me and my family on Tuesday, November 6th, in voting to reelect Representative John Kowalko so that he might continue to serve all of our best interests.

Your friend and neighbor.

A handwritten signature in dark ink, reading "Shavalya Matthews". The signature is fluid and cursive, with the first name "Shavalya" written in a larger, more prominent script than the last name "Matthews".
